To construct: Detached Accessory Building originally built by former owners to be a barn, however its partially a barn and partially an office on one end. This permit application is being provided due to the fact that the former owners did not permit the building originally. Includes existing improvements in barn and barn office: electrical, plumbing, point of use hot water heater, kitchen sink, and shower. Additional work in barn and barn office: installation of hot water heater, toilet and bathroom in conjunction with applicable Onsite Wastewater Permit.

On this day we have inspected your construction for **Framing Inspection** and we find the following result of the inspection. If there are any questions, please call the inspector at the address below.

Comments: Barn is approximately 30 years old, framing is consistent with architectural plans. Some wear and tear, but structure looks sound.
