RE: Plan Review Comments

Dear Routt County building department,

In response to the review comments received on January 13<sup>th</sup>, 2025, for the 2,208 square foot proposed pole barn is the following;

The proposed **pole barn is to have no utilities** at this time. We are constructing the shell only. If the property owner decides in the future to install any utilities, he agrees to take the appropriate steps to obtain the required permits.

Please feel free to contact me at any time if there is any additional information you may need or have questions about.

Sincerely,

Jessica Persick
