Applicant: Sarah Williams

Contractor:

To construct: I am seeking a building permit for three 8'H x 8'W x 20'L shipping containers bolted together as one unit, with interior cutouts to allow for continuous interior storage space. All corners of shipping containers sit atop 24" x 24" x 4" concrete pads and short wood piers of varying heights to achieve level.

On this day we have inspected your construction for **Building Final Inspection** and we find the following result of the inspection. If there are any questions, please call the inspector at the address below.

Comments: Final inspection for three steel shipping containers: engineers letter stating no tie downs are necessary and structure can support snow loads. Final approved.
