RE: Lot 41, Alpine Mountain Ranch LPSE  
Building Envelope Removal – REPLAT

Dear Routt County Planning;

Four Points Surveying and Engineering is pleased to submit the application and drawings for the final plat for Lot 41, Alpine Mountain Ranch LPSE Building Envelope Removal.

The owner of Lot 41 requests removal of the building envelope to permit the installation of a solar array outside of the original platted building envelope. Page 2 of the replat depicts no build zones with metes and bounds label which end up as a de-facto building envelope.

For layout of the proposed replat Four Points Surveying and Engineering reviewed the Routt County Subdivision Regulations, Section 5. The following regulations support the modification of the building envelope being requested by the applicant on Lot 41.

1. Section 5.1.1. Agricultural Land B4 “Site and size lots and building envelopes to minimize impact on agricultural activities.” The relocation of the building envelope within Lot 41 will not impact on the existing agricultural activities at Alpine Mountain Ranch since the agricultural activities are contained within the remainder parcel.
2. Section 5.1.2 Visual Resources A1, A2 and A4: Lot 41 is located on the westernly portion of the Alpine Mountain Ranch property. The new building location will not increase visual impacts to public right of way, skylining or increase visual impact from the open space.
3. Section 5.1.3 Rivers, Lakes, Wetlands, and Riparian Areas A1, A2: The placement of the proposed structures will follow water body setbacks as outlined in the Routt County Zoning Regulations 5.11.
4. Section 5.1.5 Wildlife A1: The removal of the building envelope will not impact critical wildlife habitat of threatened and/or endangered species.
5. Section 5.1.6 Geologic, Fire, Flood and Slope Hazards A1, A2 and C1 and D1: The removal of the building envelope area will not place the building envelope into geological unstable areas or areas within any floodplain or severe fire hazard areas.

Lastly the removal of the building envelope will not violate the Alpine Mountain Ranch covenants.

We look forward to the planning department review and we are available to meet or speak about the project anytime.

Sincerely;

Walter N. Magill, PE-PLS  
Four Points Surveying and Engineering
