

**Lucky 8 Ranch Special Use Permit Application
Temporary Workforce Housing
Reclamation Plan**

Area of Reclamation: Less than 0.1 acre

Reseeding time frame: dependent on season, best times to seed grass are early spring or late fall.

Gravel fill: dependent of season, once able to spread gravel (June-October)

Approximate Cost: Less than \$500.00

Time Frame: within 6 months of TWH units removal

Option 1:

Once the TWH units are moved, the area will be reseeded and mulched with less than 5 lbs of native grass mix and a few small square bales of hay.

Option 2:

Once the TWH units are moved, the area will be covered in gravel and used as barn yard/equipment storage.

Option 3:

Once the TWH units are moved, the area will be covered in gravel and a hay tent will be constructed to store hay and other ag equipment.

Notes: The courtyard of the TWH units will be either seeded with native grass mix or filled with gravel in the spring of 2018.
