Alan,

Storm water is marked and we've begun commencing grade but it needs to dry up a bit more before excavation and concrete begin.

0 tires have been generated.

17 Gallons of Used Waste Oil have been collected.

0 on Non-metal Wastes.

For next quarter I'll begin making an excel grid and send that to you to keep it organized.

Thanks!

Emily

An email is fine so this works. What about tires, motor oil, and other non-metal wastes? Please remember that this is a quarterly reporting requirement and that these number need to be provided at the end of each quarter. Also, what is the status of the construction on the stormwater pond?

Hi Alan,

Do you have a specific form or will email suffice?

Qtr 4 2023 was 0 as we were closed

Qtr 1 2024 was 189,000 pounds ferrous material diverted

I think this is what your after?

Emily

Emily and Joe,

Good morning. I hope your spring is going well. We got a request for the diversion data that you are required to submit in accordance with condition of approval #20. I looked back through our files and was not able to find this. Please send over the quarterly data for 2023 and first quarter of 2024.

Thanks and have a good day.
