Re: Peabody Foidel Creek (Twentymile) Mine Renewal at 29515 COUNTY ROAD 27, ROUTT, CO 80467

Dear Applicant,

Following are the comments regarding the Routt County's plan review for the above referenced project. We have noted several concerns and/or issues regarding the application. These items must be addressed through additional information, revised drawings and/or addendum in order for us to complete the project review for the above referenced project.

Planning Review (Reviewed By: Alan Goldich)

1. How often are the silencers on the vent fan cleaned? When was the last time they were cleaned?
2. Please submit annual DRMS reports for the past 5 years.
3. Who is your permit contact at the Air Quality Control Division?
4. Have you mined the Wolf Creek seam under CR 27 or 33? If so, please provide maps of where this seam has been mined under the county road.
5. Please provide information on MR326. What is the timing of when this work will be done?
6. The letter to DRMS dated April 4, 2024 states, "An SAE is requested for both locations." What is an SAE?

Weed Department Review (Reviewed By: Jonathan Murray)

1. A revised Weed Management Plan needs to be developed in conjunction with the Weed Department addressing the goals and policies of the Routt County Noxious Weed Management Plan.
2. Work with the Weed Department to determine management responsibilities on areas of the mine that are experiencing issues that appear to be omitted from management.
3. The current Weed Plan indicates that the Annual Reclamation Report pertaining to weeds will be submitted. What report is this? Is it the annual DRMS report?
