To whom it may concern,

My name is Cristina Lloveras, and I am an event planner with over a decade of experience in orchestrating luxury events in diverse settings. I am writing to you today regarding the staffing estimates for past and future events at Buckethead Ranch.

In my professional experience, a crucial aspect of successful event planning and execution is ensuring adequate staffing levels. It has been consistently observed that labor needs typically reflect approximately 10% of the total guest headcount. This ratio allows for seamless operations, efficient service, and a positive experience for all attendees.

Last summer, we hosted an event at your venue for 200 guests. Based on the 10% staffing guideline, we had a team of 20 professionals, including event staff, caterers, drivers, and musicians. This staffing level allowed us to manage all aspects of the event efficiently and effectively, ensuring a memorable experience for our guests.

Please let me know if I can provide any further information or documentation needed to support your questions.

Thank you for your consideration.

Sincerely,

Maria Cristina Lloveras
